

THE PERFMAN SOLUTION VMWARE

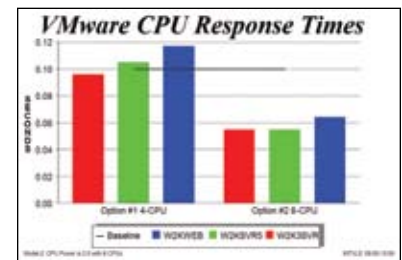

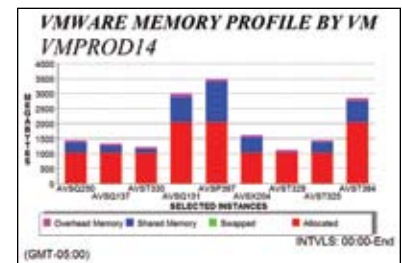

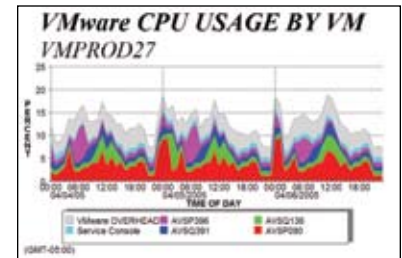

REALIZE THE FULL POTENTIAL OF SYSTEM VIRTUALIZATION

RELY ON THE PERFMAN SOLUTION FOR VMWARE TO:

- Manage the entire virtualization lifecycle from candidate selection and deployment through decommissioning.
- Achieve total visibility of all virtual machines, including CPU, memory, disk, network resource consumption, and disk space utilization.
- Manage physical to virtual (P2V) transitions.
- Identify the physical servers that represent the best candidates to realize the value in virtualization.
- View graphical representations of all discovered metrics.
- Manage capacity planning of your virtual environments.
- Effectively manage your long-term virtualization plans.
- Realize better utilization of resources and easier reallocation of servers.

KEY BENEFITS OF THE PERFMAN SOLUTION FOR VMWARE

- Proactively plan with advanced modeling tools to assist in seamless physical to virtual (P2V) transitions.
- Utilize in-depth trending and forecasting tools to take the guesswork out of tuning and purchase decisions.
- Perform enterprise-wide management regardless of platform or geographic location.
- Realize fast ROI via hardware, software licensing, and operational cost savings.
- Utilize fully automated analysis, reporting, and integrated web publishing for total control and visibility.
- Utilize advanced trending and forecasting capabilities to take the guesswork out of capacity management and operational budgeting.
- Manage multiple systems, comprising thousands of servers for a single point of control.
- Accelerate ROI with the fastest deployment and time-to-value in the industry.
- Centralize control of your entire IT infrastructure to dramatically reduce administrative overhead and eliminate human error.

THE PERFMAN SOLUTION FOR VMWARE INCLUDES:

ANALYST

A Powerful Analytical and Modeling Tool

Analyst provides deep drill down analysis and accurate forecasting through an intuitive, fast and flexible interface. Analyst helps you:

- Model infrastructure changes with advanced simulation tools
- View your entire infrastructure and identify problems before they impact your users
- Perform detailed trend analysis to accurately anticipate the needs of your organization
- Identify consolidation opportunities through the virtualization candidate selection tool
- Manage the entire physical and virtual infrastructure from deployment through retirement

POINTVIEW™
An Executive Dashboard

PointView provides cross-platform visibility to the entire enterprise IT infrastructure through a single, easy-to-use interface. PointView helps you:

- Gain insight into your entire infrastructure via the web-based dashboard
- Produce sophisticated role-based reports and view resources by service, line of business, location, application, and more
- Quickly identify current and future problem areas
- Capture a snapshot of hundreds or thousands of multi-platform systems
- Compare and analyze key indicators across platforms to monitor performance
